Subject: DOUARNENEZ HOSPITAL

I would like to inform you of my disappointment at finding that our local hospital is not 100 percent operational and NOW will be even more affected by not having a full time working operating theatre. I did not hesitate to demonstrate and sign the petition.

One of the main reasons we choose to buy a house In Douarnenez was because of the hospital.

We did not even consider a town without a local hospital! This is now a serious concern for us. Local people have even informed me that during the past on some occasions there were not even enough beds for Douarnenistes! Perhaps this situation will even deter future prospective habitants?

Surely this situation is not acceptable. We already have the building and qualified people who are willing, and need, to work right here in Douarnenez! How can we waste this precious resource?

Michèle Clark Nickler
